

*HUMAN: A being possessing the qualities that define humanity, such as rational thought, consciousness, emotions, empathy, creativity, and the capacity for moral judgment, plus shared capacity for culture, language, social interactions, and the ability to form communities and societies.*

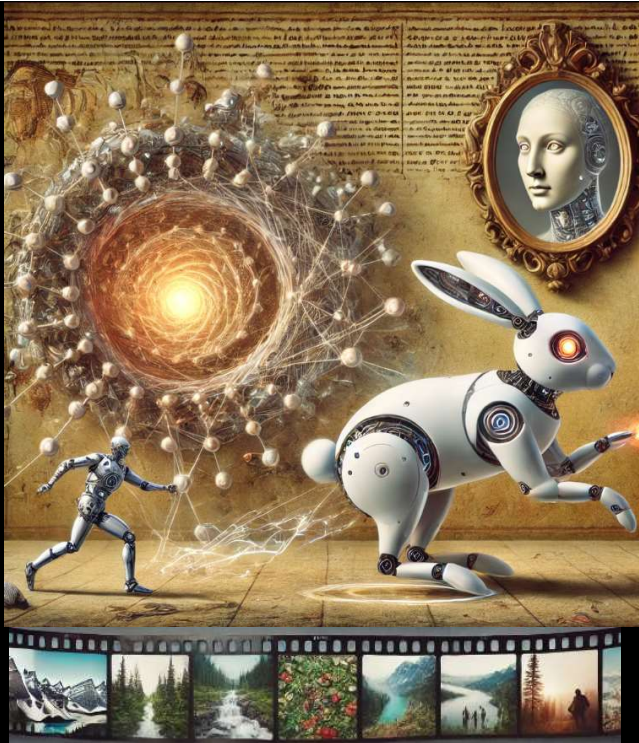

**What is art?**

**What is  
ARTificial?**

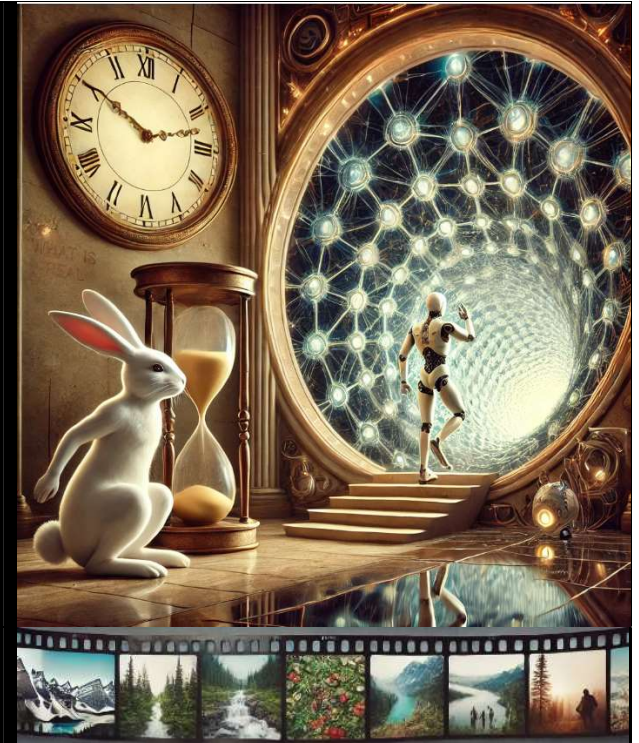

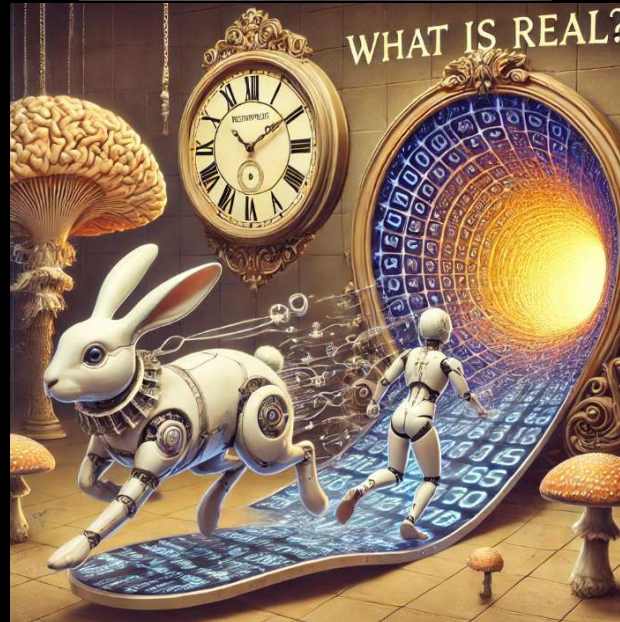

**Where will the  
“Eye and AI”  
lead?**

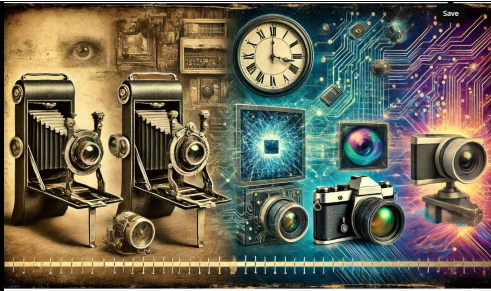

**“Would the fall [down  
the rabbit hole] never  
come to an end!”  
- Lewis Carroll  
*Alice's Adventures  
in Wonderland***

**“[E]veryday images created  
across time have been a  
product of technical and  
cultural algorithms . . . and  
not just human intentionality  
and free will.”  
- Joanna Zylinka  
*The Perception Machine: Our  
Photographic Future between the  
Eye and AI***

# When is Now for Photography?

**“There has been a nonhuman side to photography since its inception . . .”**

**“Fox Talbot [described] the medium as ‘the pencil of nature’ . . .”**

**“Photography is young again.”**  
- Lev Manovich, Cultural Analytics Lab

**Joanna Zylińska, *The Perception Machine: Our Photographic Future between the Eye and AI***
